SENT VIA EMAIL

December 9, 2010

Dear Bob:

I am writing on behalf of the Portland Harbor Natural Resources Trustee Council (Trustee Council) to follow up on our letter dated August 27, 2010 regarding the habitat equivalency analysis (HEA) values the Lower Willamette Group (LWG) intends to use for purposes of cost estimates associated with mitigation under various clean-up alternatives in the Portland Harbor Feasibility Study (FS). As you know the Trustee Council supports the use of the habitat values developed by the National Marine Fisheries Service in the FS. The Trustee Council requests that the LWG provide us with the HEA value ranges that the LWG intends to utilize in the FS and the rationale for these ranges as soon as possible.

Please let me know when we can expect to receive this information. Do not hesitate to contact me if you have any questions.

Sincerely,

Erin Madden
